🎓 EDUCATION

Master of Computer Application

University Of Mysore

2023 – present

Pursuing

To gain knowledge in computer applications, technology, and programming subjects such as Business Systems and Applications, Computer Programming with python, data Structure, Information Systems Analysis & Design, Database Management System, Intelligent Systems etc.

📁 PROFESSIONAL EXPERIENCE

SKILLEDANSWERS INFOSOLUTIONS PVT. LTD. [🔗](#)
FRONTEND DEVELOPER

07/2022 – present | Bengaluru, India

Frontend developer proficient in **Next.js**, **React.js**, **JavaScript**, and **jQuery**. I have hands-on experience utilizing these technologies to develop interactive and responsive user interfaces for web applications

Application Development & UI Review

- Developed and maintained responsive web applications using **React.js** and **Next.js**.
- Develop front-end features, components, and libraries, translating designs and wireframes into high-quality, reusable code optimized for maximum performance across various web-capable devices and browsers.
- Reviewed application requirements and interface design to ensure compatibility with existing application.

• Coding And Website Improvement

- **Integrated APIs** with **Axios** to fetch and display dynamic data, ensuring seamless user experiences.
- Collaborated with designers and backend developers to transform requirements into functional **UI components**.
- Conducted thorough testing and debugging, resulting in clean and maintainable code.
- **Collaboration With team**
- Worked closely with the team to create intuitive and visually appealing user interfaces.
- Implemented responsive design principles, ensuring cross-browser compatibility and mobile-friendliness.
- Collaborated with backend developers to integrate **frontend components with server-side logic**.

📁 PROJECTS

1. ICRESCENT [🔗](#)

an e-commerce next.js web application.

- Led the development of a scalable and responsive online store using Next.js
- Implemented dynamic Pages and features for improved user experience.
- Integrated with a backend API to retrieve product data using Axios.
- Utilized Next.js for server-side rendering, improving initial load times and SEO performance.
- Collaborated closely with the backend team to define API endpoints and ensure smooth frontend-backend integration.

2. ANMOL MOBILES [🔗](#)

A Next.js framework based an e commerce web application.

- Led the development of a scalable and responsive online store using Next.js.

**Bachelor of science (Honours) in
COMPUTER SCIENCE**
PGDAV COLLEGE - (DELHI UNIVERSITY)
2020

Gained knowledge in the theory of computing, programming languages, database systems, networking, software engineering , artificial intelligence ,Web Technologies, computer Network, programming in C++ etc.

Higher Secondary (12th)
CBSE
2015
Percentage-86.8%

Secondary
CBSE
2013
CGPA-8.4

OBJECTIVE

Seeking to leverage my strong proficiency in HTML, CSS, and JavaScript, along with my experience in modern frontend frameworks like React.js and Next.js, to contribute to a dynamic development team. Dedicated to delivering engaging and responsive web applications that provide an exceptional user experience.

COURSES WITH CERTIFICATION

MERN FULL STACK DEVELOPMENT

MERN Stack is a Javascript Stack that is used for easier and faster deployment of full-stack web applications. MERN Stack comprises of 4 technologies namely: **MongoDB, Express, React** and **Node.js**.

TESTING TOOLS

POSTMAN

Api Testing Tool

The Postman tool is primarily categorized as an API development and testing tool. It allows developers to design, build, and test APIs by providing a user-friendly interface to send HTTP requests, analyze responses.

OPERATING SYSTEM AND VERSION CONTROLS

- Windows and Linux (OS)
- GitLab and GitHub (VCS)

- Integrated with a backend API to fetch and display product data, handle user authentication, and process payments using Axios.
- Implemented a comprehensive shopping cart system with features such as adding/removing items, quantity adjustments.
- Developed a responsive design to deliver a seamless shopping experience across various devices and screen sizes.
- Collaborated closely with designers and backend developers to ensure seamless integration of frontend components with backend systems.
- Direct meeting with clients for further requirements.

3. TOUNZ

a React.js based web app for pets (holding all information in pet's tag) - Dubai

- Developed a user-friendly pet details application using React.js.
- Complete UI based on material-ui .
- Implemented a dynamic and interactive interface to showcase pet profiles, including their images, descriptions, and Missing status.
- Utilized React components to create reusable and modular UI elements for displaying pet details .
- Integrated with a RESTful API to fetch pet data, leveraging Axios for seamless data retrieval and updates.
- Incorporated user authentication and authorization features to allow pet owners to manage their pet profiles.
- Resolving bugs.

4. DYNAMIC PAGE CREATION

vanilla javascript application for backend.

- Implemented a user interface with tab navigation to display different types of content dynamically.
- Utilized Jquery AJAX API to call the specified API endpoint and retrieve content based on the selected tab.Ajax implementation and API integration .
- Implemented event listeners to capture tab changes and trigger the API requests accordingly.Direct meeting with clients for further requirements.
- Collaborated closely with backend developers to define API endpoints and ensure proper integration.
- Conducted thorough testing to validate the functionality and performance of the application.
