PROFILE

Innovative Front End Developer Proficient in **HTML, CSS, JSON, BOOTSTRAP, JAVASCRIPT** and **ECMA script** plus current **libraries** and **frameworks**. Passionate about usability and specializing in **Next.js, React.js** and **Redux** . A strong history of developing innovative application features and software solutions to enhance the user experience.

SKILLS

- **NEXT.JS**
- **REDUX**
- **JQUERY**
- **JAVASCRIPT**
- **CSS**
- **JSON**

- **REACT.JS**
- **ECMA SCRIPT**
- **Advanced Javascript**
- **BOOTSTRAP**
- **HTML**
- **API INTEGRATION**

EDUCATION

**Master of Computer Application,
University Of Mysore
2023 – present
Pursuing**

To gain knowledge in computer applications, technology, and programming subjects such as Business Systems and Applications, Computer Programming with python, data Structure, Information Systems Analysis & Design, Database Management System ,Intelligent Systems etc.

**Bachelor of science (Honours) in
COMPUTER SCIENCE,
PGDAV COLLEGE - (DELHI UNIVERSITY)
PASSOUT - 2020**

Gained knowledge in the theory of computing, programming languages, database systems, networking, software engineering , artificial intelligence ,Web Technologies, computer Network, programming in C++ etc.

Professional Experience

FRONT-END DEVELOPER
SKILLEDANSWERS INFOSOLUTIONS PVT.LTD.
Jul 2022 – present | Bengaluru, India

- **Frameworks/Libraries I've worked on**
  Next.js React.js Jquery javascript

- **Application Development & UI Review**
  - Develop front-end features, components,and libraries, translating designs and wireframes into high-quality, reusable code optimized for maximum. performance across various web-capable devices and browsers.
  - Coordinated with the development team to discuss user interface ideas and applications
  - Reviewed application requirements and interface design to ensure compatibility with existing application.

- **Coding And Website Improvement**
  - built reusable code for future use and optimized web pages for maximum speed and scalability.
  - managed brand consistency throughout the design and maintained & improved the website by adding more features and functionality.

- **Collaboration With team**
  - Partnered with cross-functional teams of back-end developers, graphic designers, and marketing teams to ensure consistency with brand standards. Demonstrated versatility, working with APIs and supporting back-end teams.

PROJECTS

1. ICRESCENT, an e-commerce next.js web application
https://www.icrescent.in/

- Started by creating reusable components out of HTML templates.
- Handovered API Request and Response sheet to the Backend team.
- Complete API integration in this web application.
- Direct meeting with clients for further requirements.
- Some UI changes as per the new requirements.
- Resolving bugs.

Higher Secondary (12th), CBSE
2015
Percentage-86.8%

Secondary, CBSE
2013
CGPA-8.4

COURSES WITH CERTIFICATION

MERN FULL STACK DEVELOPMENT

MERN Stack is a Javascript Stack that is used for easier and faster deployment of full-stack web applications. MERN Stack comprises of 4 technologies namely: **MongoDB, Express, React** and **Node.js**

OPERATING SYSTEM AND VERSION CONTROLS

- Windows and Linux (OS)
- GitLab and GitHub (VCS)

OBJECTIVE

To make use of my technical competencies for attaining the goal and creating the first-rate performance. I would like to put into effect my innovative ideas, capabilities and creativity for undertaking the projects.

INTERESTS

- Photography
- Travelling

---

2. ANMOL MOBILES , an e-commerce next.js web application
https://www.anmolmobiles.com/

- Started from converting html templates to Reuseable components.
- Handovered API Request and Response sheet to the Backend team.
- Complete API integration in this web application.
- Some UI changes as per the new requirements.
- Direct meeting with clients for further requirements.
- Resolving bugs.

3. TOUNZ, a react js based web app for pets (holding all information in pet's tag) - Dubai
https://tounz.bangalore2.com/

- Complete UI based on material-ui .
- Handovered API Request and Response sheet to the Backend team.
- Complete API integration in this web application.
- Some UI changes as per the new requirements.
- Direct meeting with clients for further requirements.
- Discussion and implementation of new ideas,
- Resolving bugs.

4. DYNAMIC PAGE CREATION , vanilla javascript application for backend.

- Pure javascript application for uploading contents from backend.
- Pages are created based on user-selected criteria.
- Ajax implementation and API integration .
- Some UI changes as per the new requirements.
- Direct meeting with clients for further requirements.
- Resolving bugs.

5. BLUEPAYMAX, React.js-based e-commerce web applications are now being converted to next.js

- Began transforming a react component into next.js
- Replaced all react dependencies by next dependencies.
- changed CSS styling format,which is bit different as compared to react.js.
- Completely changed folder structure and page routes.
- Some UI changes as per the new requirements.
- Direct meeting with clients for further requirements.
- Resolving bugs.
